

ALIF FIRDAUS AZHAR

Software Engineer (Multimedia System)

+60139748325 ♦ aliffirdausazhar217@gmail.com ♦ [LinkedIn](#) ♦ [Portfolio](#)

Software Engineering graduate (UKM) with 3.83 CGPA and five Dean's List awards. Completed a Computer Science internship at SIRIM Berhad and web development internship at SUK Selangor, building a secure i-Pelawat system using CodeIgniter 4. Led a team project to **develop a Japanese learning mobile app; skilled in PHP, Java, MySQL, HTML, and Adobe Creative Suite.**

EDUCATION BACKGROUND

UNIVERSITI KEBANGSAAN MALAYSIA

Sept 2023 - Nov 2026

BS in Software Engineering with Honours (Multimedia Systems Development) (3.83 CGPA)
(Dean List Award 6 Semesters with 3.80 GPA)

Bangi, Selangor

KOLEJ PROFESIONAL MARA BERANANG

Mar 2020 - Mar 2023

Diploma in Computer Science (3.52 CGPA)

Beranang, Selangor

SKILLS

Technical Skills:	Microsoft Excel, Microsoft Office.
Programming Skills:	Java, C++, PHP, C#, MySQL, HTML.
Design and Multimedia Skills:	Autodesk 3DS Max, Canva Pro, Adobe Photoshop, Adobe Premiere Pro.
Project Management Skills:	Agile, Scrum, Waterfall.

CERTIFICATES AND ACHIEVEMENTS

Web Development Crash Course

June 2024

Programming Club, UKM

- Gained hands-on experience in **front-end web development** through an intensive crash course.

System User Training iTRAS (i-Aset and i-Stor Module)

October 2025

Bahagian Pengurusan Maklumat Setiausaha Kerajaan Negeri Selangor

- Completed comprehensive system user training for the iTRAS i-ASET and i-Stor modules, gaining **hands-on proficiency in asset management and document storage systems.**
- **Successfully integrated training insights into system development** by applying user-centered practices to enhance login module functionality, security features, and user role management.

EXPERIENCE

IT Intern (WEB DEVELOPER)

Sept 2025 - Jan 2026

Pejabat Setiausaha Kerajaan Selangor

Shah Alam, Selangor

- Developed and enhanced a secure **web-based Visitor Management System** using **PHP (CodeIgniter 4), MySQL (HeidiSQL) and Laragon**, implementing user authentication, role-based **access control for 3 user roles**, CAPTCHA validation, QR code visitor registration, and automated visitor time-out handling.
- Designed and implemented **MySQL database** schemas for division hierarchies and user profiles, **supporting 700+ users across 20 organizational divisions**, and enhanced user management by implementing phone number fields, user roles, division-based categorization, searchable dropdowns, and sorting functionality.
- Authored comprehensive **technical documentation**, including **User Acceptance Testing (UAT) scripts, deployment guides, Apache/PHP configuration** documentation, and **user manuals** to support system implementation and maintenance.

- Configured, maintained, and troubleshoot enterprise LAN/WAN infrastructure, ensuring stable connectivity and supporting day-to-day IT operations.
- **Monitored network performance and diagnosed connectivity problems**, helping **maintain minimal downtime** across approximately 10-15 systems in the network environment.

PROJECT EXPERIENCE

- **Kana Japanese Learning Application System:** Built a Japanese learning mobile application with a team of 5 members targeting UKM students interested in learning Japanese using **Android Studio and Agile Methodology**, implementing **5+ unique features** including **gamified quizzes and interactive vocabulary drills** to enhance the Japanese learning experience. The project received **positive feedback** from the Japanese Lecturer of the UKM Center for Research in Language and Linguistics, who suggested structuring the learning content in line with the JLPT Curriculum. ([View Project](#))
- **iPelawat Visitor Management System:** Developed a **web-based system** for the Selangor State Secretariat Office, **transitioning a manual, error-prone process into a centralized web platform** using **CodeIgniter 4 and MySQL**. This system **automated registration, integrated QR code and WhatsApp** features, and provided **real-time monitoring** through a dashboard for multiple user roles. The project **successfully reduced data loss and improved administrative efficiency** by enabling streamlined record tracking and time management. ([View Project](#))

EXTRACURRICULAR ACTIVITIES

Interactive Multimedia Club FTSM, UKM:

- Spearheaded the configuration and deployment of software systems in FTSM's Learning Lab 1 for the Kem Komputeran Fasih Digital Animasi Kreatif program.
- **Conducted interactive workshops** to teach Scratch programming to approximately **80 participants**, fostering digital creativity and foundational coding skills.
